

The Discovery Center
for Science and Technology

Thousand Oaks, CA

Science Speaker Series

“Science Everyone Can Understand”

Timely Scientific Ideas Presented By Experts Who Can Explain Them Clearly.
Intended for the general public and high school students.

2011-2012 Season

Tomorrow's Scientists

Elizabeth Garfinkle - Alta Vista H.S. & Jessica Sanford - San Roche School

11 Oct 2011

Tuesday 7:30 pm

Meet a young scientist who is getting an early start on making new discoveries, and developing a new science education curriculum.

Bio-Geography and Bio-Diversity

Dr. Thomas Gillespie - UCLA

10 Nov 2011

Thursday 7:30 pm

Using amazing new geographic data and powerful computers, we can now ask:
Where can endangered species be living?
Where might a fugitive terrorist be hiding?
Are you standing in your back yard now?

Diet and Health: What can evolution teach us?

Dr. Bruce German - Director, Food for Health Institute, UC Davis

9 Feb 2012

Thursday 7:30 pm

What can we learn about our nutritional needs by looking at the food that evolution developed for us?

Breast Cancer:

Assume That Most of What You Have Learned is Wrong!

Dr. Susan Love - The Dr. Susan Love Research Foundation

8 Mar 2012

Thursday 7:30 pm

How big shifts in scientific understanding happen, and the advantage of being an outsider when doing scientific research.

Using Science to Discover and Preserve Cultural Heritage

Giacomo Chiari - Chief Scientist, Getty Conservation Institute

12 Apr 2012

Thursday 7:30 pm

Discover what's inside mummies, underneath paintings and in the Sistine Chapel, using unique measurement instruments and new preservation methods.

Thursday Evenings
7:30 - 9:00

Location: [Baxter Healthcare Corp.](#),
1 Baxter Way, Westlake Village
